

**GE ECM BY REGAL-BELOIT
BLOWER**

Cat. #5472

Features

- Complete air moving package consisting of motor, fan, & shroud
- Ultra-high efficiency
- 12” moisture resistant motor leads
- Ultra-quiet design
- Moisture-resistant construction
- Maintenance free

Applications

Designed for condenser and evaporator fan motors used in display cases, ice machines, beverage merchandisers, vending machines and other similar applications.

GE ECM by REGAL-BELOIT 58mm

Speeds	Max. Watts	RPM Range	Volts	Rotation	FLA @ NP	Motor Eff.	Shroud	Cat. No.	List Price	C Dim.
Single	38	1650	120	CW	0.52	68	Yes	5472	\$101	2.90
	38	1470	120	CW	0.52	68	Yes	5471	101	2.90
	38	1340	120	CW	0.52	68	Yes	5470	101	2.90

Features

- Ultra-high efficiency
- 12” moisture resistant motor leads
- Ultra-quiet design
- Moisture-resistant construction
- Maintenance free

Applications

Designed for condenser and evaporatory fans on refrigerators, freezers, coolers, vending machines, and other similar applications.

GE ECM by REGAL-BELOIT 64mm

HP	RPM	Speeds	Volts	Base	Rotation	FLA @ NP	Cat. No.	List Price	C Dim.	Notes
9W	1650	1	115	Tap	CW	0.3	5443♦	\$ 94	4.00	4
16W	1850	1	115	Tap	CW	0.4	5444♦	101	4.00	4

♦ Energy Saver design

Features

- Analyzes the GE ECM by REGAL-BELOIT motor independent of the HVAC system
- Detect and isolate motor failures from HVAC system failures
- Easy to use

Applications

Designed to troubleshoot the GE ECM by REGAL-BELOIT 2. series in HVAC applications.

GE ECM by REGAL-BELOIT TECMate Service Tool
